Welcome to Prince George Gymnastics 2024 Invitational.

As I watch the local athletes in training I am always amazed at the time and effort it takes to practice singular skills that become part of a larger routine. With all the prior hard work behind them they get to compete these routines at competitions and do the best they can do on that day. Competitions can end in happy or sad tears, but that hard work and effort expended is a benefit in the long run wherever that takes them. That is what I think about every time I get the pleasure of seeing a gymnastics competition.

So, I would like to thank all the coaches, club staff, volunteers, sponsors and parents who help make the 2024 PG Gymnastics competition possible so we all can admire and cheer on the athletes competing this weekend.

Good Luck to all the athletes and have fun!

Lauren Hawkes
President, Prince George Gymnastics Club

Welcome everyone to the 2024 Prince George Invitational. We are so thrilled to be hosting over 300 athletes this year from all Zone 7 and Zone 8 clubs. A big Prince George welcome to all athletes, coaches, judges, and spectators.

Due to the fantastic organization and leadership of our Meet Director, Vicki Lynn Bobbie, and the large help from her assistant Alexis Ruffell you are certainly in for a great weekend of gymnastics. Thank you so much ladies for all your time and effort to make this event such a success.

A special shout out to all of our volunteers as well, the event would not be possible without each and every one of you.

I wish all the athletes "Good luck", and a safe weekend, I hope you all leave the gym with a big smile and feeling proud of your performance.

High five from all of us here at the Prince George Club, we hope to see you all back next year.

Jodie Hinks
Head Coach/General Manager

Canadian Competitive Program (CCP)

Gymnastics BC adopted the USAG Development Program (formerly known as the JO program) in 2014, Gymnastics Canada adopted the USAG Development Program created in the USA for use in the Provinces and Territories in July 2015. The USAG Development Program was created with the belief that all athletes, regardless of their potential, must have a solid foundation of basic skills in order to advance safely. The program allows the gymnasts to advance at their own pace, competing in more than one level in a year, if they so choose. The USAG Development Program is called Canadian Competitive Program (CCP) in Canada. In 2020, BC partially adopted the USAG Xcel program to bridge the gap between the BC Interclub and BC CCP Programs.

The CCP program is divided in three major segments:

Learn the basics: Levels 1 to 3

These are compulsory routines with set choreography and music. They allow gymnasts to develop good and strong basics and can be used as a club non-competitive and achievement-oriented program or as an introduction to competition.

Compulsories: Levels 4 and 5

These continue to use compulsory routines and choreography. Both of these levels are progressive in nature, building upon the skills required at the previous level.

Optional: Levels 6 to 10

These are competitive programs using optional routines. These levels have difficulty restrictions. Composition, including artistry is evaluated in Levels 8 and 9.

Women's Artistic Gymnastics (WAG) Events

Vault: The vault should have both height and distance, as well as good form from the springboard through to the landing. Competitors vault twice and the best score is counted.

Uneven Bars: The routine should be continuous, with movements flowing one into another. Swinging movements, in sequence, take the gymnast under and over the bars in both directions. Positions of support, standing or sitting should be momentary. A fall is an automatic deduction of 0.80 points, with 30 seconds to remount.

Balance Beam: The 16 ft long, 4" wide balance beam requires great concentration and discipline from the athlete. The composition of the routine should include combinations of turns, jumps, steps and leaps, tumbling, and dance. One element close to the beam is required. The routine must be between 70 and 90 seconds. A fall is an automatic 0.50 points, with 30 seconds to remount.

Floor Exercise: Dance and tumbling ability, combined with the creativity and personality of the athlete, make floor one of the most popular of the gymnastics events. Performed to music, the routine must use the entire 40ft x 40ft floor area in the 70 – 90 second time limit.

PG Gymnastics Invitational

Men's Artistic Gymnastics (MAG) Program

Gymnastics BC (GBC) offers competitive programs for men's artistic gymnastics from grassroots to high performance. In the following chart, ages have been indicated so that the table does not have to be redone every year.

Level	PROVINCIAL					NATIONAL	
	1	2	3	4	5	Open	Elite
Program	Compulsory Program		Optional Program			Optional Program	Compulsory (Elite 3+4) and Optional (Elite 4, Junior + Senior) Program
Age Group	Open to all ages (in BC the minimum age is 7)		13 +	13 +		15 +	Senior - 21 + Next Gen Senior 18 - 20
					13 - 17		Junior 16 - 18
		10 - 12					Elite 4 12 - 14
		Under 10 (in BC the minimum age is 8)	Under 13	Under 13			Elite 3 10 - 12

All athletes' ages are based on the year of competition and their birth year (i.e.: In 2021 an athlete born in 2011 is considered 10 all year because they turn 10 in 2021). See each separate program's age category chart. GBC may merge categories if the number of registered participants is insufficient.

Men's Artistic Gymnastics (MAG) Events

Floor Exercise: The floor exercise includes a variety of tumbling, turns, acrobatics, balances, and momentary pauses. The sequences should be original and reveal the strength, agility, control and personality of the athlete, all with correct form and execution. Unlike the women, the men's floor exercise is not performed to music.

Pommel Horse: Swings, scissors, circles, and flairs, both forward and backward compose a routine on the pommel horse. The routine should be continuous and use all three sections of the horse, both on and off the pommels. Lower levels are allowed the use of the mushroom in their routines.

Still Rings: A routine on the rings will vary between strength elements, hold parts, and swinging movements, all without swinging the rings. A high, clean, controlled dismount finishes the routine.

Vault: The men's vault is judged on form, execution, height, distance, and control, all based on the difficulty of the vault performed. The men perform only one vault.

Parallel Bars: The routine consists of swinging, flight and strength elements. Form and execution must be maintained throughout while displaying strength and control.

Horizontal (High) Bar: Swings, circles, "in bar" elements, release moves, and a high-flying dismount make up a spectacular performance. As in every event, control of form and execution are a must.

PG Gymnastics Invitational

Interclub

Interclub is for athletes at an advanced recreational level who are wanting to experience the benefits that come along with being a competitive gymnast. Athletes may perform on any gymnastics apparatus: traditional men's (MAG) and women's (WAG) artistic gymnastics apparatus, as well as trampoline, double mini-trampoline or tumbling (TG) for both men and women.

There are three categories:

Performance: Athletes (MAG & WAG) will receive a certificate listing the apparatus they performed and positive comments from each adjudicator. They will also receive a participation ribbon or medal.

Performance Plus (MAG, WAG, TG) and Performance Challenge (WAG): Athletes will receive a certificate indicating their scores (instead of comments) and the appropriate ribbons for each apparatus (gold, silver, bronze). Each participant will also receive a participation ribbon or medal.
